Summary

Motivated and detail-oriented Computer Science student with a strong foundation in software development. Proficient in C++ with hands-on experience in solving data structures and algorithmic problems. Skilled in front-end development using HTML, CSS, JavaScript. Possess a basic understanding of data science concepts including data analysis and machine learning. Ability to collaborate effectively in team environments, backed by better written and verbal communication skills. Eager to contribute to innovative projects and grow as a full-stack developer in a dynamic organization.

Education

- B.Tech. (CSE) | Poornima College of Engineering CGPA: 8.38 | (Nov '22 - '26)
- XII (CBSE) | Jawahar Navodaya Vidyalaya, Suratgarh 89.20% | 2021
- X (CBSE) | Jawahar Navodaya Vidyalaya, Suratgarh 89.80% | 2019

Skills

Technical Skills: HTML, CSS, JavaScript, C++, Python, Java, SQL.

Tools: VS Code, Chrome DevTools, Git/GitHub, Tableau.

Documentation: MS Word, MS Excel, MS PowerPoint, Google Docs, Google Sheets, Google Slides.

Interpersonal and Other: Communication, Teamwork, Problem Solving.

Projects

- **Movie Data Analysis**
 - Taken data from Kaggle and practiced it.
 - To get insights, most watched, flopped and why.
 - Python and its libraries (seaborn, matplotlib, numpy, panda).
- **House Price Analysis**
 - Taken data from Kaggle and practiced it.
 - Data Preprocessing and Price dependency on various factors and why.
 - Python and its libraries (seaborn, matplotlib, numpy, panda).
- **LocalMart Web Platform**
 - frontend of a web platform using HTML, CSS and JavaScript.
 - browsing and wish listing of products and cart management.
 - responsive design, interactive UI components, and state management.

Certifications and workshops

- **Data Science** August 2024 (6 weeks)
 - Data Visualization, Introduction to Analysis using ML and AI in Data Science.
 - Python and its libraries (seaborn, matplotlib, numpy, panda).
- **Python with AI** June 2024 (6 weeks)
 - Basics of Python and Introduction to AI.
 - Built a chat bot using google API.
- **Java Core** August 2023 (4 weeks)
 - Learn and Build
 - Java basic concepts, exception and file handling and OOP's concepts.

Hobbies
